Sir;

The enclosed matter is being forwarded to you as requested for your information.
For your general information it was first observed March 5, 1958 at or about
6:30 PM by a Mr. [REDACTED] age 41 [REDACTED] North Canton 20, Ohio. Akron
phone [REDACTED]

Mr. [REDACTED] observed the enclosed matter floating down in the sky about 6:30PM
about 100 yards south of Koons road. This location would be 1.6 miles west of
State route #241 and 7.3 miles south of the Akron corp limits

Our records show that we first recieved word of this incident at 10:34 PM 3-5-58
This unit was assigned the complaint and arrived at the scene at 11:01 PM. The
only people contacted outside the members of this department were the Weather
Bureau and the control tower at Akron-Canton Airport.

Respectfully yours

Ptl. J.P. Gilmartin OSP
State Highway Patrol

REMARKS

Larry - The answer to this letter is contained in our letter to Mr. Gilmartin of Ohio State Highway Patrol, a copy of which is inclosed. We answered the Gilmartin letter in accordance with the last paragraph of AFR 200-2 because it was local inquiry.

The material was definitely "Chaff"

Major Lawrence J. Tacker
Executive Officer
Public Information Division
Office of Information Services
Department of the Air Force
Washington, D.C.

Dear Major Tacker:

Thank you for informing me that the Air Force had no record of the sighting reports I mentioned in my last letter. I now am requesting some information on another incident in this area.

On March 5th or 6th Mr. [REDACTED] saw some material falling from the sky. It was metal foil-like and in strips 6 inches long, 1/8 inch wide and 3/64 inch thick. Mr. [REDACTED] lives south of Akron near the Akron-Canton Airport. The Ohio State Patrol took all the the material that fell and sent it to A.T.I.C. I would like to know what the material was, why it fell, and who was using it in this area.

Your immediate attention to this matter will be appreciated.

Sincerely,

[REDACTED]
[REDACTED], Director

Dear Mr. Gilmartin:

Thank you for sending us samples of the material turned over to you by Mr. [REDACTED].

We have analyzed the material and find that it is strips of foil known as "Chaff", which is used in connection with radar operations as a jamming device, and also to test radar. The material you submitted probably was dropped from Air Force aircraft during training exercises.

Your interest and cooperation in this matter is sincerely appreciated.

Sincerely,

LEE H. STRAHL
Deputy Chief
Air Intelligence Office

Dear Major Tacker:

My letter of March 11, 1958 has still not been answered. I request that you please check to see why it hasn't been answered. In case my letter was accidentally lost I will repeat, and again I request your immediate attention to this matter.

On March 5th or 6th Mr. [REDACTED] saw some material falling from the sky. He reported the incident to the Ohio State Patrol who took it and sent it to A.F.I.C. The materail was metal foil-like and in strips 6 inches long, 1/8 inch wide and 3/64 inch thick. I would like to know what the materail was, why it fell, and who was using it in this area. This incident occurred a few miles south of Akron, Ohio near the Akron-Canton Airport.

Sincerely,

[REDACTED]
[REDACTED], Director

17 April 1958

Dear Mr. ~~XXXXXXXXXX~~:

This is to acknowledge your letter of 12 April 1958 concerning foil-like material which fell from the sky at Akron County Airport on 5 March 1958.

For your information this material was "chaff", a foil-like material used by the U. S. Air Force in radar counter measure tests.

Sincerely,

LAWRENCE J. TACKER
Major, USAF
Executive Officer
